Employability Pipeline

Journey of Change (Work Star)

**1** **Not thinking about work**  
Can't work - no way - its just not possible

**2**

**3** **Thinking about work**  
There's no way I can work now but will look at what I need to do

**4**

**5** **Making progress**  
Some barriers overcome but others still there

**6**

**7** **Work ready with support**  
If in work, may be considering advancement, with support

**8**

**9** **Self-reliant**  
Working, work ready or learning to advance within work and resilient - no support needed

**10**

# Stepping stones

- What you could be doing in 3-5 years time:
  - Contract provision
  - Sustainable outcome payments
- What you can do now:
  - Pitch to local employers
  - ...or specialist schools
  - Who are the key orgs in your area?

 shmu  
create • express • transform

# Partnership working

- Integration with other services
- Who do you need to work with?
- Who could help recruit?

# Identifying and supporting learners

- What are your learners' needs (& how do you know)?
- One size doesn't fit all
- Not all staff are able to work with all groups
- Learner journeys - how do they come to you and where do they go after?

# Implications for your station

- Ethos of change – aligns with mission?
- Development needed to get staff & systems in place – takes time.
- Not simply a way to make money - need to take your role as youth support org seriously – eg:
  - safeguarding
  - how you link with other support services.
- How to integrate with existing radio output.

# Your USP?

- Radio as referral route for young people interested in media
- You are an employability provider, who happens to use media to develop skills.

## Further support:

- One to one
- Webinars

## Other resources:

- Training Handbook
- Training materials
- Evaluation tools
- Video
- Podcasts
